

TUESDAY TECH TIP

NIAGARA FALLS PUBLIC LIBRARY/NIAGA LIBRARY SYSTEM

NOVEMBER 21, 2017: SCHOOL AND JOB CLOSINGS (PART 2)

We recently covered online resources for keeping track of closings, delays, travel bans and weather forecasts.

The Nioga library system spans three counties and weather can vary drastically across the wide geographic area.

This Tech Tip is a follow-up to include information for staff and patrons of all libraries shown above. Specifically, these resources are recommended for those libraries in Orleans and Genesee counties, marked in the above Google map by red and green markers, respectively.

- Please note: Although the Nioga library system does not extend into Rochester, closings and weather alerts for Rochester are especially useful for library users located on the eastern end of Orleans and Genesee counties.

SCHOOL CLOSINGS, BUILDING DELAYS AND TRAVEL BANS

TRAFFIC AND ROAD CLOSURES

In addition to the New York State websites mentioned in the previous Tech Tip, the Genessee County Sheriff's website posts travel bans.

WEATHER CONDITIONS AND FORECASTS

The links provided in the previous Tech Tip are useful for finding forecasts for any geographic area. Simply search by town, city or zip code. Local news stations post their weather forecasts online, as well:
